

Designed and Formulated in Australia by APC

**DESCRIPTION**

A single component water based acrylic self-cross-linking coating, designed to penetrate concrete surfaces and adhere to produce a clear gloss coating, providing a hard-wearing surface.

Clear Penetrating Sealer / Highlight is solvent-free and does not have the flammable hazards of conventional solvent based products.

**RECOMMENDED USES**

- Residential driveways
- Warehouses
- Light industrial buildings

**FEATURES AND BENEFITS**

- Suitable for Interior and Exterior coatings.
- Water based, easy to apply.
- No solvent fumes or flammable hazards.
- Can be sprayed, brushed or applied by roller.
- Fast drying.
- Hard wearing surface resistant to abrasion.
- UV resistant.

**SURFACE PREPERATION**

Concrete is to be clean and free of grease, oil, paint or any curing agent.

**APPLICATION**

Using a roller, brush or low pressure spray equipment apply 2 coats of Water Based Clear Sealer for optimum effect, but the application must not be too thick, as excessive build up may cause the coating to appear milky when subjected to ponding. This effect will disappear when the coating dries completely.

**COVERAGE**

Coverage is between 4-6m<sup>2</sup> per litre depending on the type of application.

**RETURN TO SERVICE**

Foot traffic 24 hours.

**SHELF LIFE**

24 Months if kept in unopened container & stored in cool dry conditions

**POT LIFE**

30 – 45 Minutes depending on the temperature.

**IMPORTANT NOTICE:** Read the SDS and TDS carefully prior to the use of any product. Application, performance & safety data may change from time to time. In emergency, contact the Poisons Information Centre (phone 13 11 26 within Australia) or a doctor for advice. **IF THE SITUATION IS LIFE THREATENING, DIAL 000.**

**PRODUCT DISCLAIMER:** Read the SDS & TDS carefully before use of any product.
