# FLOORING SOLUTION IMAGES

Scope of Works – Manufacturing Factory 7,000m<sup>2</sup>: To provide a long lasting flooring solution without a gloss finish.

## Solution

- > Prepare the floor by diamond grinding
- > Repair cracks and holes using Epoxy Putty
- > Polyurethane to expansion joints
- > Coat existing tilt slab wall in Gloss Epoxy
- > Install a multiple Epoxy roll coat system with a Ceramic finish

Scope of Works – Railway Pedestrian Tunnel 250m<sup>2</sup>: To provide a high trafficable substrate suitable for heavy foot traffic with a slip resistant finish.

## Solution

- > Prepare the floor by diamond grinding
- > Repair cracks and holes using Epoxy Putty
- > Install a 2mm-4mm Epoxy Matrix System giving a slip resistant finish

# FLOORING SOLUTION IMAGES

**Scope of Works – Food Processing Plant:** To provide a long lasting flooring solution which meets all Australian food and OHS standards.

## Solution

- > Prepare the floor by diamond grinding
- > Repair cracks and holes using Epoxy Putty
- > Install a 2mm—4mm Epoxy Matrix System
- > Apply High Chemical Top Coats

**Scope of Works – Commercial Kitchen 600m2:** To provide a long lasting flooring solution in a harsh environment including Coving and Falls to Waste.

## Solution

- > Prepare the floor by diamond grinding
- > Repair cracks and holes using Epoxy Putty
- > Install Epoxy Mortar Falls to Waster
- > Install Epoxy Mortar Coving
- > Install a 2mm-4mm Epoxy Matrix System

# FLOORING SOLUTION IMAGES

Scope of Works – Retail Showroom 800m<sup>2</sup>: To provide a decorative, hard wearing, easy to clean & hygienic flooring solution.

## Solution

- > Prepare the floor by diamond grinding
- > Repair cracks and holes using Epoxy Putty
- > Install 5 coat Epoxy and Urethane Flake System
- > 2 x 100% Solids Epoxy
- > 1 x Full broadcast Flake
- > 2 x Polyurethane top coats

Scope of Works – Retail Showroom 200m<sup>2</sup>: To provide a decorative, hard wearing, easy to clean & hygienic flooring solution

## Solution

- > Prepare the floor by diamond grinding
- > Repair cracks and holes using Epoxy Putty
- > Install 5 coat Epoxy and Urethane Flake System
- > 2 x 100% Solids Epoxy
- > 1 x Full broadcast Flake
- > 2 x Polyurethane top coats

Scope of Works – Cement Pipes: To seal the internal surfaces of drainage pipes.

#### Solution

- > Pressure blast internal surfaces
- > Apply a 3 coat Epoxy System to achieve .6mm DFT lining
